

Dropbox and Medion Offer (100 GB) Supplemental Terms and Conditions

Posted: 1/1/2024
Effective: 1/1/2024

Congratulations on getting your new Medion device! As a special “Thank You!” Medion has teamed up with Dropbox to give you 100 GB of extra Dropbox space for 90 days free of charge (the “Offer”). Before claiming your space, you should understand the terms and conditions governing this promotion (“Offer Terms”). The Offer Terms are in addition to Dropbox’s standard [Terms & Conditions](#), [Acceptable Use Policy](#), and [Privacy Policy](#) (our “Standard Terms”) governing your use of the Dropbox services. By claiming the Offer, you agree to these Offer Terms in addition to our Standard Terms. Capitalized terms used here but not defined have the meaning given to them in our Standard Terms.

Offer Eligibility

This Offer is open to new Dropbox users who buy and register a new and eligible Medion device. The Offer can be redeemed only once per device. The Offer cannot be claimed on a refurbished, used, or wiped and restored device and cannot be combined with other offers. The Offer is personal to you and is non-transferable. The Offer is not available in Cuba, Iran, North Korea, the region of Crimea including Sevastopol, Russia, Belarus, Donetsk and Luhansk People’s Republics, and Syria, or any other countries where the Dropbox Service is not available, restricted by law, or subject to tax.

100 GB Space Grant

The 100 GB promotional space is in addition to the 2 GB of basic quota given to every Dropbox user, as well as any other space you may have earned by referring friends, completing Getting Started or performing other specified actions (collectively, your ‘Permanent Quota’). At the end of the 90 day promotional term, your space allocation will revert back to your Permanent Quota.

After the 90 Day Offer Expires

If, at the end of your promotional period, the data you have stored in Dropbox exceeds your Permanent Quota, you will no longer be able to add files to Dropbox and your devices will stop syncing. You can fix this anytime by either deleting files in your Dropbox online until your storage amount falls below your Permanent Quota, or by [upgrading](#). If you upgrade, you’ll increase your space allocation and get other advanced features.

In the event that you choose not to upgrade, we will email you at the email address associated with your account and ask you to delete or move your files to bring your account within your Permanent Quota. If you fail to do so within a reasonable period of time after we send this notice email (at least 60 days), Dropbox reserves the right to suspend or permanently delete your entire account together with all stored data, including data within your Permanent Quota.

Software Installation

By signing up for a new Dropbox account or signing in to your existing Dropbox account, you agree to have the Dropbox client installed on your device including a shortcut on your desktop. The Dropbox installation will occur in the background and the amount of time needed can vary based on your internet connection speed. You are responsible for any internet usage fees associated with the download of the Dropbox client.
