Posted: May 4, 2020

Prior Version: [June 3, 2019](#)

This Data Processing Agreement (the “DPA”) supplements the Dropbox Business Agreement (“Agreement”) between Dropbox, Inc. and Dropbox International Unlimited Company (together, “Dropbox”) and the customer that has executed or agreed to the Agreement (“Customer”). Capitalized terms used, but not defined, in this DPA are defined in the Agreement.

1. Nature of the Data and Role of the Parties. The rights and obligations in this DPA apply solely to the Processing of Personal Data regarding data subjects in the EEA (“EU Personal Data”) by the Services by Dropbox on behalf of Customer, but does not apply to Beta Services. For the purposes of this DPA, references to Customer Data shall mean any EU Personal Data incorporated in the Customer Data.
2. Data Processing.
 - 2.1. Instructions. The Agreement and this DPA constitute Customer’s instructions to Dropbox to Process Customer Data. Dropbox will use and Process Customer Data as Customer instructs in order to deliver the Services and to fulfill Dropbox’s obligations under the Agreement and this DPA. Dropbox will inform Customer of any legal requirement which prevents it from complying with Customer’s instructions, unless prohibited from doing so by applicable law or on important grounds of public interest.
 - 2.2. Processing Activities. Dropbox, Dropbox personnel, and Sub-processors will only Process Customer Data to provide the Services and to fulfill Dropbox’s obligations in this Agreement. The categories of Personal Data to be Processed by Dropbox and the Processing activities to be performed under this Agreement are set out in Exhibit A.
 - 2.3. Personnel. Any Dropbox personnel who have access to Customer Data will be bound by appropriate confidentiality obligations.
3. Security.
 - 3.1. Security Measures. Dropbox will Implement the technical and organizational measures set forth in the Agreement and Exhibit B to this DPA.
 - 3.2. Security Incidents. Dropbox will promptly, and without undue delay, notify Customer in writing at the email address associated with the account if a Security Incident occurs, so long as applicable law allows this notice. Without limiting the foregoing, Dropbox will use commercially reasonable efforts to provide this notice within 72 hours of confirming the existence of a Security Incident. Dropbox may limit the scope of, or refrain from delivering, any disclosures to the extent reasonably necessary to avoid compromising the integrity of Dropbox’s security, an ongoing investigation, or any Dropbox customer’s or end user’s data. “Security Incident” means any actual unauthorized disclosure of or access to Customer Data, or compromise of Dropbox’s systems that Dropbox determines is reasonably likely to result in such disclosure or access, caused by failure of Dropbox’s Security Measures and excluding any unauthorized disclosure or access that is caused by Customer or its End Users, including Customer or its End Users’ failure to adequately secure equipment or accounts.
 - 3.3. Notification. Dropbox will assist the Customer in ensuring compliance with its obligations pursuant to EU Data Protection Laws by providing relevant information which may include: (a) the nature of the Security Incident, including, where possible, the categories and approximate number of personal data records concerned; (b) the likely consequences of the Security Incident; (c) the measures taken or to be taken to address the Security Incident, including, where appropriate, the measures to mitigate its possible adverse effects; (d) the name and contact details of the Data Protection Officer or other contact from whom more information may be obtained; and (e) justifications for any delay in notification;. Should it not be feasible for Dropbox to provide all of the relevant information in its initial notification to the Customer, Dropbox will provide further relevant details without undue delay.
4. Sub-processors.
 - 4.1. Dropbox Use of Sub-Processors. Customer consents to Dropbox’s appointment of Subcontractors, including Sub-processors, to perform the Services. Where a Sub-processor will process EU Personal Data, Dropbox will ensure that the Sub-processor is subject to substantially similar data protection obligations as those set forth in this DPA regarding EU Personal Data which satisfy the requirements of EU Data Protection Laws. Dropbox will list its current Sub-processors at: <https://assets.dropbox.com/documents/en/legal/subprocessors-dfb->

013118.pdf or another link provided by Dropbox from time to time. Dropbox will remain liable for all acts or omissions of its Subcontractors or Sub-processors, and for any subcontracted obligations.

- 4.2. Customer Objections. Dropbox may add or remove Sub-processors from time to time. Dropbox will inform Customer in advance of new Sub-processors via a subscription mechanism described in the list of Sub-processors linked above. If Customer objects to a change, it will provide Dropbox with notice of its objection to privacy@dropbox.com including reasonable detail supporting Customer's concerns within sixty days of receiving notice of a change from Dropbox or, if Customer has not subscribed to receive this notice, within sixty days of Dropbox publishing the change. Dropbox will then use commercially reasonable efforts to review and respond to Customer's objection within thirty days of receipt of Customer's objection. Dropbox's response to Customer's objection will include, at a minimum, reasonable accommodations, if any, that Customer or Dropbox can take to limit or prevent a new Sub-processor from acting as a processor of Customer Data when Customer makes use of the Services. If Dropbox does not respond to a Customer objection as described above, or cannot reasonably accommodate Customer's objection, Customer may terminate the Agreement by providing written notice to Dropbox: (a) within thirty days of receipt of a Dropbox response that does not comply with this Section 4.2; or (b) if Dropbox fails to respond, within thirty days of the date Dropbox's response was due.
5. Data Subject Rights. Customer is responsible for responding to any request by a data subject to exercise their rights under EU Data Protection Laws. If Dropbox receives any such request in relation to the Customer Data, Dropbox will direct the applicable data subject to Customer to exercise his or her rights under EU Data Protection Laws without undue delay after verifying the request pertains to Customer Data. Dropbox will provide Customer with information or tools that are reasonably designed to enable Customer to fulfill its obligations to respond to these requests through the functionality of the Services, taking into account the nature of the Processing and insofar as this is possible.
6. Compliance Assistance. To assist Customer with its compliance obligations under EU Data Protection Laws related to security, data protection impact assessments, and prior consultation with supervisory authorities, Dropbox will make the following available during the Term: (a) the Audit Reports described below; (b) the information contained in Exhibits A and B; and (c) the information found at <https://www.dropbox.com/business/trust/compliance/certifications-compliance> and <https://www.dropbox.com/security/gdpr>. If, after reviewing the aforementioned materials, Customer reasonably believes it needs further information in order to meet its compliance obligations, Dropbox will use commercially reasonable efforts to respond to written questions by Customer regarding the materials. Dropbox will comply with valid requests from relevant supervisory authorities to the extent required by applicable EU Data Protection Law.
7. Deletion. Upon Termination of the Agreement and this DPA, Dropbox will delete Stored Data in Customer's account in a commercially reasonable period of time following receipt of an Administrator's request to do so prior to such termination. Notwithstanding the foregoing, Customer acknowledges and agrees that Dropbox may be a controller with respect to certain Account Data, and may retain this data in accordance with EU Data Protection Laws, provided that Dropbox is solely responsible for its compliance with these laws in connection with its own Processing.
8. Inspections.
 - 8.1. Audit Reports. Dropbox has completed Service Organization Control 2 (SOC 2) Type II, Service Organization Control 1 (SOC 1) Type II, ISO 27001 and ISO 27018 audits for the Services, which were conducted by an independent auditor that evaluated the design and effectiveness of Dropbox security policies, procedures, and controls. Dropbox will continue to undergo regular Service Organization Control audits for the Service during the Term. At no cost to Customer, upon Customer's written request, but no more than once per year, Dropbox will provide Customer a copy of the most recent SOC 2 Type 2 and ISO reports (the "Audit Reports"), subject to Customer agreeing to treat the SOC 2 report as Dropbox's confidential information pursuant to a non-disclosure agreement.
 - 8.2. Customer Review of Audit Reports. If Customer reasonably believes it needs further information in order to confirm Dropbox's compliance with the provisions of the Agreement relating to Personal Data subject to EU Data Protection Laws, Dropbox will use commercially reasonable efforts to respond to written questions by Customer regarding the Audit Reports.
 - 8.3. Customer Inspection. If Customer is not satisfied with Dropbox's responses to questions provided pursuant to Section 8.2, Dropbox will permit Customer, or an agreed upon Customer representative, subject to appropriate confidentiality obligations, to visit Dropbox's premises and discuss Dropbox's responses with Dropbox personnel.
 - 8.4. Process for Inspections. Dropbox reserves the right to: (a) charge a separate fee for its reasonable costs associated with performing any of its obligations in Section 8.2 or 8.3, provided that Dropbox will provide an estimate of these fees to Customer prior to incurring the costs; or (b) object to any Customer representative participating in an inspection on the basis that they are not qualified, are not bound by an adequate requirement

to protect confidential Dropbox information, or are a competitor of Dropbox. For Customer inspections pursuant to Section 8.3, the Parties will first mutually agree on the scope, timing, and duration of the inspection. Dropbox reserves the right to limit the scope and duration of an inspection to the extent reasonably necessary to avoid compromising the integrity of Dropbox's security or any Dropbox customer's or end user's data.

9. Transfers. Customer agrees that Dropbox and its Sub-processors may transfer, store, and Process Customer Data in locations other than Customer's country. To the extent EU Personal Data is Processed outside of the EEA, this Section 9 applies.
 - 9.1. Privacy Shield. Dropbox, Inc. is certified and complies with the EU-U.S. Privacy Shield Program with respect to the collection, use and retention of EU Personal Data transferred from the EEA to the United States. If the Privacy Shield Program is invalidated, Dropbox will use commercially reasonable efforts to comply with alternate or successor data transfer mechanisms.
 - 9.2. Model Clauses. If EU Personal Data is transferred from the EEA to: (a) any country other than the United States that has not been found to provide adequate safeguards; or (b) the United States if the Privacy Shield Program is invalidated and no alternate or successor data transfer mechanism exists or Dropbox is unable to comply with the new mechanism, the terms of the transfer shall be governed by the EU Standard Contractual Clauses attached hereto as Exhibit C.
10. Insurance. Dropbox maintains reasonable coverage for Technology Errors and Omissions insurance, which may include coverage for privacy and network security liability, losses or damages due to the unauthorized use/access of a computer system or database, and defense of any regulatory action involving a breach of privacy, as well as other coverage areas. Upon Customer's reasonable written request, and no more than once per year, Dropbox will provide a certificate of insurance evidencing its coverages.
11. Effect of DPA. If a provision in this DPA conflicts with a provision in the Agreement, then this DPA will control with respect to the processing of EU Personal Data. The Agreement will remain in full force and effect and will be unchanged except as modified by this DPA. This DPA and the EU Standard Contractual Clauses will terminate automatically upon expiration or termination of the Agreement.

3. Nature and Purpose of the Personal Data Processing: To enable Customer to receive and Dropbox to provide the Services.
4. Categories of Personal Data: To the extent the Customer Data contains Personal Data, it may consist of end users identifying information and organization data (both on-line and offline) as well as documents, images and other content or data in electronic form stored or transmitted by End Users via the Services.
5. Data Subjects: To the extent the Customer Data contains Personal Data, it may concern Customer's End Users, any individuals collaborating or sharing with these End Users, or any other individual whose information is stored by Customer in the Stored Data.

Exhibit B

Security Measures

The Dropbox has implemented and will maintain appropriate administrative, technical and physical safeguards to protect personal data as further described in the Dropbox Business Security Whitepaper (available as of the Effective Date at: https://www.dropbox.com/static/business/resources/Security_Whitepaper.pdf) and additionally set forth below. Dropbox may update these security measures from time to time, with the most recent version available at the above URL (or other URL as communicated by Dropbox), provided however that Dropbox will notify Customer if Dropbox updates the security measures in a manner that materially diminishes the administrative, technical or physical security features described therein or in this Exhibit B.

1. Service Security.

- 1.1 Dropbox Architecture. Dropbox's Services are designed with multiple layers of protection, covering data transfer, encryption, network configuration and application-level controls that are distributed across a scalable, secure infrastructure. End users of Dropbox's service can access files and folders at any time from the desktop, web and mobile clients. All of these clients connect to secure services to provide access to files, allow file sharing with others, and update linked devices when files are added, changed or deleted. The service can be utilized and accessed through a number of interfaces. Each has security settings and features that process and protect Customer Data while ensuring ease of access.
- 1.2 Reliability. Dropbox's Services are developed with multiple layers of redundancy to guard against data loss and ensure availability.
- 1.3 Encryption. To protect Customer Data in transit between the Customer and Dropbox, Dropbox uses Secure Sockets Layer (SSL)/Transport Layer Security (TLS) for data transfer, creating a secure tunnel protected by 128-bit or higher Advanced Encryption Standard (AES) encryption. Stored Data at rest is encrypted using 256-bit AES encryption. Dropbox's encryption key management infrastructure is designed with operational, technical and procedural security controls with very limited direct access to keys. Encryption key generation, exchange and storage are distributed for decentralized processing.
- 1.4 User Management Features. End users of Dropbox's service have the ability to restore lost files and recover previous versions of files, ensuring changes to those files can be tracked and retrieved. Dropbox's service allows for the use of a two-step authentication procedure which adds an extra layer of protection.
- 1.5 Data Centers. Dropbox's corporate and production systems are housed at third-party subservice organization data centers located in the United States, Germany, Japan or Australia. Dropbox reviews all subservice organization data center Service Organization Control (SOC) 1 and/or SOC 2 reports at a minimum annually for sufficient security controls.

2. Information Security.

- 2.1 Policies. Dropbox has established a thorough set of security policies covering areas of information security, physical security, incident response, logical access, physical production access, change management and support. These policies are reviewed and approved at least annually. Dropbox personnel are notified of updates to these policies and are provided security training.
- 2.2 Personnel Policy and Access. Dropbox's internal policies require onboarding procedures that include background checks (as allowed by local laws), security policy acknowledgement, communicating updates to security policy, and non-disclosure agreements. All personnel access is promptly removed when an employee or contractor leaves the company. Dropbox employs technical access controls and internal policies to prohibit employees or contractors from arbitrarily accessing file data and to restrict access to metadata and other information about end users' accounts. In order to protect end user privacy and security, only a small number of employers or contractors have access to the environment where end user files are stored. A record of access request, justification and approval are recorded by management and access is granted by appropriate individuals.
- 2.3 Network Security. Dropbox maintains network security and monitoring techniques that are designed to provide multiple layers of protection and defense. Dropbox employs industry-standard protection techniques, including firewalls, network security monitoring, and intrusion detection systems to ensure only eligible traffic is able to reach Dropbox's infrastructure.
- 2.4 Change Management. Dropbox ensures that security-related changes have been authorized prior to implementation into the production environments. Source code changes are initiated by developers that would like to make an enhancement to a Dropbox application or service. Changes to Dropbox's infrastructure are restricted to authorized personnel only. Changes to the application level of the services are required to go through

automated quality assurance (“QA”) testing procedures to verify that security requirements are met. Successful completion of QA procedures leads to implementation of the change.

2.5 **Compliance.** Dropbox, its data center providers, and its managed service provider undergo regular security audits which are performed by an independent third party. Dropbox will continue to participate in regular ISO/IEC 27001 and ISO/IEC 27018 audits. Dropbox also reviews SOC 1 and/or SOC 2 reports for all subservice organizations. In the event a subservice organization’s SOC 1 and/or SOC 2 report is unavailable, Dropbox performs security site visits to verify applicable physical, environmental, and operational security controls satisfy control criteria and contractual requirements. Dropbox evaluates additional certifications and compliance attestations, as made available to Dropbox by the subservice providers, on an ongoing basis.

3. **Physical Security.**

3.1 **Infrastructure.** Physical access to subservice organization facilities where production systems reside are restricted to personnel authorized by Dropbox, as required to perform their job function. Any individuals requiring additional access to production environment facilities are granted that access through explicit approval by appropriate management.

3.2 **Office.** Dropbox maintains a physical security team that is responsible for enforcing physical security policy and overseeing the security of Dropbox’s corporate offices. Access to areas containing corporate services is restricted to authorized personnel via elevated roles granted through the badge access system.

4. **Security Contact.** Requests regarding information security can be directed to the Information Security Officer of Dropbox at security@dropbox.com.

2. If a Data Subject is not able to bring a claim for compensation in accordance with paragraph 1 against the Data Exporter, arising out of a breach by the Data Importer or his Sub-Processor of any of their obligations referred to in Clause 3 or in Clause 11, because the Data Exporter has factually disappeared or ceased to exist in law or has become insolvent, the Data Importer agrees that the Data Subject may issue a claim against the Data Importer as if it were the Data Exporter, unless any successor entity has assumed the entire legal obligations of the Data Exporter by contract or by operation of law, in which case the Data Subject can enforce its rights against such entity. The Data Importer may not rely on a breach by a Sub-Processor of its obligations in order to avoid its own liabilities.
3. If a Data Subject is not able to bring a claim against the Data Exporter or the Data Importer referred to in paragraphs 1 and 2, arising out of a breach by the Sub-Processor of any of their obligations referred to in Clause 3 or in Clause 11 because both the Data Exporter and the Data Importer have factually disappeared or ceased to exist in law or have become insolvent, the Sub-Processor agrees that the Data Subject may issue a claim against the data Sub-Processor with regard to its own processing operations under the Clauses as if it were the Data Exporter or the Data Importer, unless any successor entity has assumed the entire legal obligations of the Data

Exporter or Data Importer by contract or by operation of law, in which case the Data Subject can enforce its rights against such entity. The liability of the Sub-Processor shall be limited to its own processing operations under the Clauses.

Clause 7

Mediation and jurisdiction

1. The Data Importer agrees that if the Data Subject invokes against it third-party beneficiary rights and/or claims compensation for damages under the Clauses, the Data Importer will accept the decision of the Data Subject:
 - a. to refer the dispute to mediation, by an independent person or, where applicable, by the supervisory authority;
 - b. to refer the dispute to the courts in the Member State in which the Data Exporter is established.
2. The parties agree that the choice made by the Data Subject will not prejudice its substantive or procedural rights to seek remedies in accordance with other provisions of national or international law.

Clause 8

Cooperation with supervisory authorities

1. The Data Exporter agrees to deposit a copy of this contract with the supervisory authority if it so requests or if such deposit is required under the applicable data protection law.
2. The parties agree that the supervisory authority has the right to conduct an audit of the Data Importer, and of any Sub-Processor, which has the same scope and is subject to the same conditions as would apply to an audit of the Data Exporter under the applicable data protection law.
3. The Data Importer shall promptly inform the Data Exporter about the existence of legislation applicable to it or any Sub-Processor preventing the conduct of an audit of the Data Importer, or any Sub-Processor, pursuant to paragraph 2. In such a case the Data Exporter shall be entitled to take the measures foreseen in Clause 5(b).

Clause 9

Governing law

The Clauses shall be governed by the law of the Member State in which the Data Exporter is established.

Clause 10

Variation of the contract

The parties undertake not to vary or modify the Clauses. This does not preclude the parties from adding clauses on business related issues where required as long as they do not contradict the Clause.

Clause 11

Sub-processing

1. The Data Importer shall not subcontract any of its processing operations performed on behalf of the Data Exporter under the Clauses without the prior written consent of the Data Exporter. Where the Data Importer subcontracts its obligations under the Clauses, with the consent of the Data Exporter, it shall do so only by way of a written agreement with the Sub-Processor which imposes the same obligations on the Sub-Processor as are imposed on the Data Importer under the Clauses. Where the Sub-Processor fails to fulfill its data protection obligations under such written agreement the Data Importer shall remain fully liable to the Data Exporter for the performance of the Sub-Processor's obligations under such agreement.
2. The prior written contract between the Data Importer and the Sub-Processor shall also provide for a third-party beneficiary clause as laid down in Clause 3 for cases where the Data Subject is not able to bring the claim for compensation referred to in paragraph 1 of Clause 6 against the Data Exporter or the Data Importer because they have factually disappeared or have ceased to exist in law or have become insolvent and no successor entity has assumed the entire legal obligations of the Data Exporter or Data Importer by contract or by operation of law. Such third-party liability of the Sub-Processor shall be limited to its own processing operations under the Clauses.
3. The provisions relating to data protection aspects for sub-processing of the contract referred to in paragraph 1 shall be governed by the law of the Member State in which the Data Exporter is established.
4. The Data Exporter shall keep a list of sub-processing agreements concluded under the Clauses and notified by the Data Importer pursuant to Clause 5(j), which shall be updated at least once a year. The list shall be available to the Data Exporter's data protection supervisory authority.

Clause 12

Obligation after the termination of personal data-processing services

1. The parties agree that on the termination of the provision of data-processing services, the Data Importer and the Sub-Processor shall, at the choice of the Data Exporter, return all the personal data transferred and the copies thereof to the Data Exporter or shall destroy all the personal data and certify to the Data Exporter that it has done so, unless legislation imposed upon the Data Importer prevents it from returning or destroying all or part of the personal data transferred. In that case, the Data Importer warrants that it will guarantee the confidentiality of the personal data transferred and will not actively process the personal data transferred anymore.
2. The Data Importer and the Sub-Processor warrant that upon request of the Data Exporter and/or of the supervisory authority, it will submit its data-processing facilities for an audit of the measures referred to in paragraph 1.

Additional Provisions

Capitalized terms used in Sections A to D and the Appendices but not defined in the Clauses are defined in the Agreement.

- A. **Security Audit.** The data importer maintains ISO/IEC 27001 and ISO/IEC 27018 certifications, which are issued by an independent third party auditor. The data importer will continue to undergo regular ISO/IEC 27001:2013 and ISO/IEC 27018 audits necessary for maintaining such certifications for the Services during the Term. The data importer also regularly undergoes Service Organization Control 2 (SOC 2) Type II audits. Subject to the data importer's confidentiality obligations and no more than once a year, the data importer will provide the data exporter with a copy of the SOC 2 Type II Report upon written request. The data importer will make new SOC 2 reports available as they are completed subject to the data importer's confidentiality requirements.

The data exporter agrees that the data importer's obligations set forth in this Section A and Section 8 of this DPA fully satisfy the audit rights under Clause 5(f) and Clause 12 (2) of the Clauses.
