Dropbox commissioned independent market research specialist Vanson Bourne to undertake the research upon which this infographic is based. A total of 2,500 business and IT decision makers were interviewed during July and August 2019. All respondents are from organisations with 250 or more employees, and they must collaborate with at least one person on a daily basis, and also use software and applications to get their work done. The results shown here are based on the total sample of respondents from the manufacturing industry in France.
