

The State of Collaboration in the UK:

Media

Independent market research company Vanson Bourne surveyed 2,500 IT and business decision makers on the state of collaboration in their organisations. These are the results from 100 respondents in the media industry in the UK.

The media industry is struggling to unite disparate teams, varied content types, and rising consumer expectations

This, paired with other team-specific challenges, is resulting in:

33%
Innovation and creativity being compromised

30%
Decreasing speed to delivery

17%
A worse audience experience

Business success and audience satisfaction is dependent on reinventing the way media teams work together

This level of improvement could lead to...

78%
...creativity becoming easier

84%
...a good experience for the consumer

77%
...a greater chance of success for the organisation

A collaborative workplace, which unites your content, tools and teams, is the first step for media leaders seeking to engage teams and win audiences

90% believe a connected workplace would improve the way teams work, and boost business results by...

47%
...increasing employee productivity

42%
...increasing creativity and ideas

49%
...saving time and improving efficiency

Dropbox commissioned independent market research specialist Vanson Bourne to undertake the research upon which this infographic is based. A total of 2,500 business and IT decision makers were interviewed during July and August 2019. All respondents are from organisations with 250 or more employees, and they must collaborate with at least one person on a daily basis, and also use software and applications to get their work done. The results shown here are based on the total sample of respondents from the media industry in the UK.
